Cast steel components. Made to your drawings.

Carbon and low-alloy steel components, with casting, heat treatment and CNC machining in our own plant.

IN-HOUSE CNC MACHINING

2005	10+ years	IATF	No MOQ	~45 days*
Founded in Laizhou	Supplying ADR Group's China operation	16949:2016 certified	Small batches welcome	First samples

*After receipt of tooling prepayment and confirmation of technical information.

WHAT WE SUPPLY

Materials Carbon and low-alloy cast steel. Ductile iron available on request.

Supply options Cast blanks, heat-treated or fully machined parts. Painting and export packing to agreed requirements.

FROM TOOLING TO FINISHED PARTS

01 Tooling and production planning
02 Casting to the agreed specification
03 Heat treatment to drawing requirements
04 CNC turning and milling
05 Inspection, finishing and packing

EXAMPLES OF OUR CASTINGS

Torque rod bracket

Suspension bracket

Saddle bracket

Coupling sleeve

Axle and suspension parts for commercial vehicles, agricultural machinery and industrial equipment.

Manufacturing you can verify.

More than ten years supplying ADR Group's China operation with axle and suspension castings. Other customers in China include Qingte Group and Pengxiang Automobile.

QUALITY AND DOCUMENTATION

IATF 16949:2016

Certified by URS

122349/A/0001/SM/En

Valid to 30 July 2028

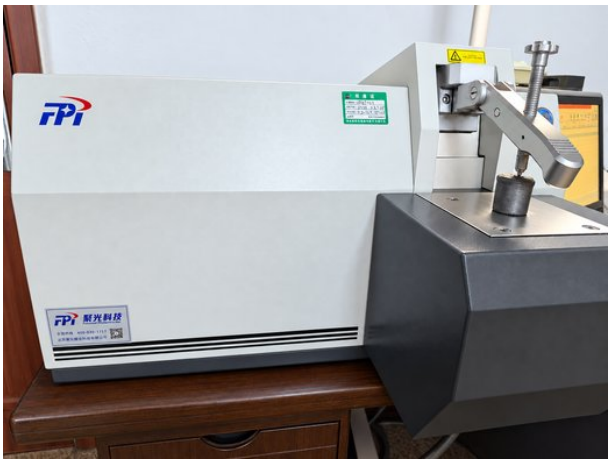
Scope: iron / steel castings and sheet metal welded parts.

Chemical composition. In-house spectrometry.

Properties and dimensions. Tensile, impact and hardness testing; CMM and gauges.

Project documentation. FAI / ISIR, PPAP and EN 10204 3.1 to agreed project requirements.

Special inspection. UT / MT can be arranged through qualified external laboratories, with methods and acceptance criteria agreed per order.



Spectrometry

Tensile testing

CMM inspection

IN-HOUSE MANUFACTURING

Toolmaking and induction melting; normalising, quenching and tempering, or surface hardening; CNC turning and milling.

Heat-treatment routes and inspection requirements agreed per part.

Sheet metal & robotic welding.

Send us your drawing.

Include the material, annual quantity, shipment quantity and delivery destination.

Production lead time and documentation agreed per project.
FOB or CIF terms can be quoted.
